Listed below are the classes that you should register for in fall semester. Unless denoted “optional” all classes listed for fall semester are required in order to advance to spring semester in the program.

If you see a class listed, and believe that you've taken the class at a different institution, please review your DARS report in eServices to ensure that the class transferred to SCTCC to fulfill the program requirement. If it did not transfer, please register for the class as instructed. Instructions for how to access and interpret a DARS report can be found at the link provided in your welcome letter.

Please refer to the registration access code provided in your welcome letter when registering for classes. Contact the Academic Advising Center at advising@sctcc.edu with your questions about the class schedule or for assistance with registration.
