Dear SCTCC Automotive Student:

There is a Program Orientation/Tool Day on Wednesday, July 15, 2020 from 9:00 am until 11:00 am. Students can begin checking in at 8:45 am at the Truck Shop (room 1-270). The Truck Shop is located on the West side of the campus, near Door 15. Enter by the 2 big overhead glass doors facing North.

Come to meet the instructors, see the shop, and we will be available to answer your questions.

On this day, we will also be running our Transportation Tool Day by the Truck Shop. This will be outside, weather permitting. There will be several vendors displaying their products from 9 am to 11 am. To place an order for tools through the vendors, you will need about 15-20% down. Actual prices vary by vendor.

Student tools should not be delivered to St. Cloud Technical and Community College - have them delivered to your residency (home) so you can do an accurate inventory before bringing them to campus. Toolboxes can be dropped off the week before school starts between 8 am and 1 pm or the first week of school.

Automotive - The approximate cost is $3,500.

It is strongly recommended that you attend Tool Day. After this day, you will be responsible to contact the tool vendors and make arrangements to receive your tools by the time school starts.

Financial Aid is not paid out until the second week of school. Please make sure to make financial arrangements.

Thank you,
SCTCC Transportation Programs
