Surgical Technology Program

Prospective Student - Information Packet

Welcome!
Health programs have specific requirements for students to complete. This material is to help guide you through the process from beginning to graduating from your intended health major.
Staff and faculty are here to assist with your educational journey and look forward to seeing you on campus!

Surgical Technology Program Description
The Surgical Technology is a full-time program that begins each fall semester.
The Surgical Technology program is 2.5 semesters:
- fall semester
- spring semester
- summer semester
24 students are accepted each fall semester.
It is a competitive program that requires a 2-application process.
The Surgical Technology program at SCTCC trains graduates to set up and pass instruments to the surgeon during various surgical procedures. Patients count on every professional in the operating room to help ensure a safe and effective outcome, and a Surgical Technology degree prepares grads for that professionalism.
Graduates will become an integral member of the health care team providing surgical care to patients. Under the supervision of a surgeon, surgical technologists ensure that the operating room environment is safe, that equipment functions properly, and that the operative procedure is conducted under conditions that maximize patient safety.

Surgical Technology Careers
Potential employers include Hospitals, Physicians offices and Outpatient Care Centers.

- The 3-year placement rate for the Surgical Technology program is 100%.
- The average Central MN hourly salary range is $24.00 per hour.
Surgical Technology Admissions Process – 1st Steps
